

## Study in the UK. Get More.

At the University of Sunderland, recognised as a Top 50 UK university by the Guardian University Guide 2024 and celebrated globally in the Times Higher Education World Rankings 2023, we proudly support a vibrant community of over 27,000 students from around the world based at campuses in the UK, Hong Kong, and partnerships worldwide. Our Sunderland location is one of the UK's most cost-effective cities for students and is a fantastic location for your overseas studies.

### A Great Time to Study with Us

Starting your studies in 2024 is a great time to begin your learning journey with us. Sunderland offers a fantastic range of scholarships and discounts specifically designed to support our international student community.

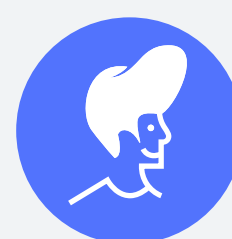

### New Financial Flexibility

We understand the financial commitments of studying abroad. That's why we've introduced a new instalment payment plan effective from September 2024. As an International student, you can pay an initial 50% deposit of your tuition fees, with the remaining balance spread over five equal monthly instalments starting the second month after your course begins. For example, if your course starts in September, your first payment isn't due until November 1.

### Enhanced Support for International Students

Our international students also enjoy significant tuition fee reductions—£1,400 for undergraduates and £900 for postgraduates. Additionally, we provide complimentary campus transport and access to affordable student accommodation, subject to availability.

### Affordable Living in Sunderland

Known for its low living costs, Sunderland is ranked top three most affordable UK city for students according to the 2021 Prospects Luminate survey. With average weekly student rents at £77.79, Sunderland represents exceptional value.

Take your first step towards studying in the UK and discover all of the support you can receive in 2024 by visiting the scholarships area of our website.
